To be reviewed by [Simon Belt](#) July 2012

With a back cover pitch of:

"The mere fact you're reading this means that it has all gone wrong and I'm probably dead so excuse all the blood.

This is a love story; my love story. Girl meets boy, she starts up a Norwegian black metal group, they have satanic orgies, everyone tries to murder them, people die and churches get burned. It's just what you'd expect of a black metal love story. It's going to be loud, outlandish and gruesome."

And a personal recommendation, how could I not be intrigued.
