Book Reviews

The scope of this section is to publish reviews of books - by authors based around Manchester, book launches around Manchester, books relating to Manchester, and reviews written by people around Manchester. As this is a new initiative on the site, contributions and suggestions on how best to structure and solicit reviews are welcome.

Suffice to say that the site cannot pay for contributions, but links from the reviews are possible where they are relevant. Please Email me your book reviews to reviews@manchestersalon.org.uk .
